Children to Benefit from Mount Dora Community Trust Donation

LifeStream's Child Care Choice Services program received a grant from the Mount Dora Community Trust in the amount of \$5,000. LifeStream contracts with the Early Learning Coalition of Lake County to administer School Readiness services through their Child Care Choice Services programs. The program targets at-risk working poor families with children birth-12, whose income does not exceed 150% of the federal poverty index. The \$5,000 received from the Mount Dora Community Trust will be used to go towards securing the needed local match funding, required to draw down State and Federal funds. Lake County has a 6% working poor eligible match funding requirement. The \$5,000 match will secure \$89,250 in direct child care services. The funds are used to provide subsidized child care for disadvantaged children and quality early learning programs for at-risk families.

**Mount Dora Classic Car
Festival
March 19th & 20th, 2010**

**OVER 150 VINTAGE CARS WILL
BE ON DISPLAY**

The Mount Dora Car Show is back! After years of absence, one of the original Central Florida car shows is making a comeback to our City. Just in time to be a part of the 100th Anniversary of the City of Mount Dora, you are hereby invited to attend and participate in a day long celebration of classic, custom, or exotic vehicles from across the County.

Our Show will be open to the public free of charge and will take place in downtown Mount Dora on Donnelly Street and Fourth Avenue. This years Show will be for the benefit of the Mount Dora Area Chamber of Commerce, located on Alexander and Third Avenue.

In addition to Place Awards, Special Awards will be selected by our Show Committee, to include Mayor's Cup, Centennial Trophy, for the Oldest vehicle registered, and Best of Show, to name a few. For designated car clubs participating with 10 or more vehicles, separate trophies will be provided for that group with judging done by their Club officers.

Eric J. Reinhold Author of Ryann Watters and the King's Sword & Ryann Watters and the Shield of Faith

Had a book signing at Costco that went very well. He sold the first 72, then they broke out the reserve and they sold all of them. Eric said he met one woman who drove 2 hours with her son to get their books signed and then they were headed to Mount Dora for the day to see the setting for the book! Yeah... part of Eric's desire in having Mount Dora be the setting was to have a place readers could go to feel the series come to life.

Ribbon Cutting Ceremonies

Mid-Florida Eye Center Welcomes you!

More than 20 years ago, our founders envisioned building a premier eye-care practice in Central Florida by combining the talents of board-certified, fellowship-trained specialists in a wide range of eye conditions and diseases. They also made a commitment to stay at the forefront of technology and treatment options.

Their vision quickly became reality. Today, our five physicians have dedicated themselves to treating each patient with the most ethical, compassionate, highest-quality care possible. In turn, our patients have trusted us to perform more than 130,000 cataract and laser procedures.

We take the importance of your vision as seriously as you do, and do everything in our power to create lifelong relationships that exceed your expectations.

Mid-Florida Eye Center physicians have been nationally and internationally-recognized for bringing excellence in eye care to people throughout Central Florida.

More than 20 years of experience and expertise and a desire to remain at the forefront of diagnosis, treatment and prevention of disorders and diseases of the eye and vision, have resulted in recognition of our physicians, surgery center and practice.

However, nothing is more important to us than delivering excellence in eye care to you.

Lake County Web site touts importance of 2010 U.S. census

The census is important because it affects funding for Lake County, and data collected in the census helps inform decision makers how the community is changing. Approximately \$400 billion in federal funding is distributed to communities each year based on census data.

The Lake County Complete Count Committee was formed in January 2009 and represents the area's diverse population, geography and organizations. Members from a host of organizations, including churches, community groups, local governments and schools, offer their expertise and insights to develop a robust outreach strategy that leverages and capitalizes on existing outreach and community touch points, all in an effort to avoid an undercount. The Committee works in close partnership with the U.S. Census Bureau to leverage federal resources at the local level to coordinate outreach efforts in the most effective way possible.

- Your response matters — Census data helps inform decision makers how our community is changing.
- Bring federal dollars to our community — The population counted during the census affects funding for our community. Approximately \$400 billion in federal funds are distributed to communities each year based on the census.
- The census is short and simple — With only 10 questions, the 2010 Census questionnaire is one of the shortest in history and takes just 10 minutes to complete.
- Your response is strictly confidential — By law, the Census Bureau cannot share an individual's census questionnaire responses with anyone, including other federal agencies and law enforcement entities.
